# MY FIRST FLIGHT

A Colouring & Activity Adventure

FREE 5-PAGE SAMPLE

**Colour. Play. Make travel memories.**

English edition | Print at home

# A little guide for grown-ups

A printable adventure to enjoy together, before, during or after a trip.

## 01 PRINT YOUR WAY

Choose the PDF that matches your paper: A4 or US Letter. Use Actual size / 100%. If your printer clips the edges, choose Fit to printable area. Print any pages you want; you do not need to print the cover.

## 02 KEEP IT SIMPLE

Crayons or coloured pencils work well. Print single-sided if using markers, and put scrap paper underneath. Bring a small folder or clipboard to keep loose sheets together. No cutting is needed.

## 03 PLAY AT YOUR OWN PACE

The suggested age is 4-7. Read prompts aloud when helpful; a younger child can point or talk instead of writing. Skip any activity that is not enjoyable. Stay together in airport waiting areas, and follow crew and airport instructions.

## 04 YOUR FREE SAMPLE

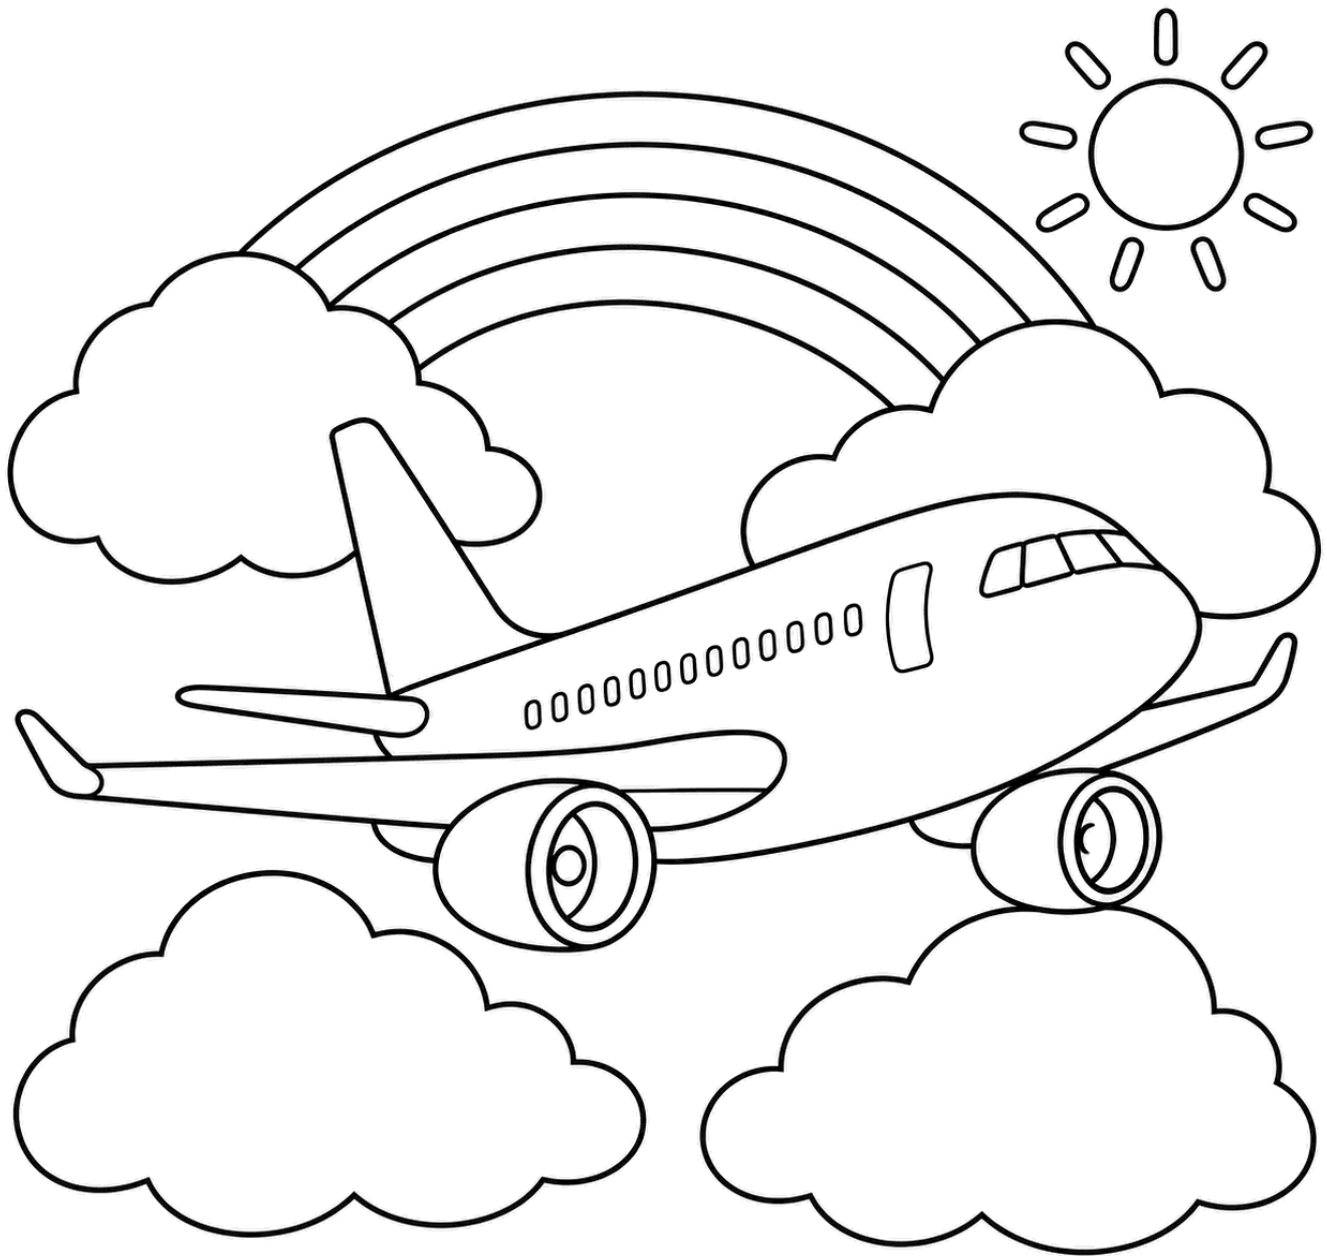

Try one colouring page, airport spotting and a maze. The maze solution is printed small on its page. This sample is US Letter; select Fit to printable area when printing it on A4. The full pack includes both paper sizes and 32 pages.

### YOUR FAMILY COPY

You may print copies for children in your own household. Please do not resell, upload, or share the full PDF. Ask FlyingWith about classroom or group use. Written answers stay on your paper; this pack does not collect information from children.

# Up above the clouds

Make a bright sky for the airplane. Give the rainbow your favourite colours.

There is no wrong colour. Make this adventure yours.

# Airport spotting

Stay with your grown-up. Tick things you can see from your waiting area.

**An airplane**
